

# BASIT HUSSAIN

DATA ANALYST | Python | SQL | Power BI | Excel

Karachi, Pakistan | basithussain620@gmail.com | 0317-2345680 | [LinkedIn](#) | [GitHub](#)

## ABOUT ME / PROFESSIONAL PROFILE

Data Analyst with hands-on experience in data collection, cleaning, validation, analysis, and reporting using Excel, SQL, Python, and Power BI. Currently working with web-based business data and building end-to-end analytical projects involving dashboards, SQL analysis, Python pipelines, and data quality workflows. Background in pharmaceutical sales adds practical experience in performance analysis, territory planning, and business reporting.

## WORK EXPERIENCE

### Web Data Scraping / Data Analyst - Q Solution | Apr 2026 - Present

Karachi, Pakistan

- Collect, verify, clean, and structure business listing data for lead-generation projects.
- Use Python, web-scraping workflows, and Excel to process business names, categories, locations, phone numbers, websites, and related fields.
- Perform duplicate detection, missing-value checks, website availability classification, and record validation before delivery.
- Prepare organized Excel datasets and quality-control summaries for business use.

### Product Executive (Medical Representative) - Highnoon Laboratories | Dec 2024 - Mar 2026

Karachi, Pakistan

- Analyzed territory sales and business performance data to identify trends and support territory planning and business decision-making.
- Conducted Excel-based reporting for doctor-wise, chemist-wise, and territory-level performance monitoring.
- Tracked sales targets and KPIs, monitored competitor activity, and evaluated product performance to guide field strategy.
- Prepared structured performance reports to support data-driven decision-making.
- Recipient of the Best Seller of the Year 2025 award.

### Medical Representative - Scilife Pharma | Jan 2022 - Nov 2024

- Analyzed sales trends and customer feedback to support territory planning and performance reporting.
- Tracked and reported monthly sales KPIs to monitor territory growth.
- Recipient of the Best Seller of the Year 2023 award.

## EDUCATION AND TRAINING

### BS Computer Science | 2022 - 2026

Federal Urdu University of Arts, Science & Technology (FUUAST), Karachi, Pakistan

Coursework completed; final results pending

### Intermediate (Pre-Engineering) | 2020

### Matriculation (General Science) | 2018

## DATA SCIENCE / ANALYTICS PROJECTS

### SQL Sales Analysis | PostgreSQL

Analyzed 10,000 sales records using PostgreSQL to evaluate revenue, profitability, product performance, regional trends, discount impact, and year-over-year growth. Used CTEs, joins, CASE WHEN, aggregations, LAG, DENSE\_RANK, running totals, and window functions to answer business-focused analytical questions.

Key metrics: 10.03M total sales | 1.71M total profit | 17.05% profit margin | 3.36% 2022 YoY sales growth.

GitHub: [SQL-Sales-Analysis](#)

### Hospital Emergency Room Analytics Dashboard | Power BI

Built an interactive Power BI dashboard analyzing patient volume, department referrals, average wait time, patient satisfaction, demographics, and departmental performance. Used Power Query, data modeling, DAX measures,

slicers, KPI cards, and interactive report pages for Executive Summary, Department Analysis, and Patient Demographics.

### Retail Sales Analysis Pipeline | Python

Built an end-to-end Python data analysis pipeline for 10,000 sales records using pandas, NumPy, and Matplotlib. Performed data validation, duplicate checks, missing-value analysis, feature engineering, KPI calculations, sales trend analysis, profitability analysis, and automated chart generation. Structured the project with reusable functions, processed outputs, documentation, and a Jupyter Notebook.

Technologies: Python, pandas, NumPy, Matplotlib, Jupyter Notebook.

## DIGITAL / TECHNICAL SKILLS

---

- **Data Analysis:** Excel, Power BI, Data Cleaning, Data Validation, EDA.
- **Programming:** Python, pandas, NumPy, Matplotlib.
- **Databases & SQL:** PostgreSQL, MySQL, SQL Queries, Joins, CTEs, Window Functions, Aggregations, CASE WHEN, Data Quality Checks.
- **BI & Reporting:** Power BI (DAX, Power Query, Data Modeling), Excel Dashboards (PivotTables, XLOOKUP).
- **Data Collection:** Web Scraping.
- **Tools:** Git, GitHub, VS Code, Jupyter Notebook, Google Sheets (Basic), Google Apps Script (Basic).

## CERTIFICATIONS

---

- Google Data Analytics Professional Certificate - Google / Coursera (Jul 2026) | [View Certificate](#)
- AI & Data Science - Saylani Mass IT Training (SMIT)
- Certificate of Appreciation - Highnoon Laboratories (Kinetic): recognized for achieving 100% sales target and positive quarterly growth.
- Skills Development Program - Highnoon Laboratories (Dec 2025): corporate training program at Regional Sales Office, Karachi.

## AWARDS & ACHIEVEMENTS

---

- Best Seller of the Year 2025 - International Award Trip, Kuala Lumpur, Malaysia (Highnoon Laboratories).
- Best Seller of the Year 2023 - Award Trip, Baku, Azerbaijan (Scilife Pharma).
